Stork Paint (Construction and Paint Manufacturin)

Vision and Mission

Vision

To become the first company that comes to mind in the regions where we operate; a pioneering and respected organization recognized for the quality of our services, ensuring continuity as the preferred choice of consumers. By developing environmentally conscious and easily applicable projects within our sector, we aim to provide solutions that offer favorable pricing and payment advantages for public institutions and private organizations. Through our research and development efforts, we contribute to the advancement of the industry while creating projects that promote sustainable living. We strive to employ highly qualified human resources and foster a corporate culture built on trust and respect.

Mission

To create a meaningful difference through environmentally responsible, renewable, and sustainable energy projects that respect both the environment and the urban landscape. We are committed to delivering reliable structures, valuable living spaces, and profitable investment opportunities for our customers. By focusing on innovation, quality, and customer satisfaction, we aim to enhance the quality of life while generating long-term value for all stakeholders.

High Coverage

Resistant to Scratches

Easy to Apply

Odorless

Resistant to All Weather Conditions

Resistant to Frost

Water Resistant

Easy to Repair

Resistant to Yellowing and Fading

Long Lasting

Features:

- It is an acrylic emulsion-based, water-based exterior paint.
- It has high resistance to external conditions.
- It forms a matte, decorative-looking surface.
- It has high coverage; with a single coat, provides effective results.
- It does not crack or peel on breathable exterior surfaces.
- Its colors are long lasting and resistant to sunlight.

ACRYLIC EXTERIOR PAINT

20
Kg

Features:

- Decorative textured paint for interior and exterior surfaces.
- It is acrylic-based and water-based.
- Rolotex creates a textured (sprayed) decorative finish on applied surfaces.
- It has high coverage.
- It does not crack or peel on breathable exterior surfaces.
- Easy to apply and long lasting.

ROLOTEX TEXTURED PAINT

20
Kg

Features:

- Decorative, special effect paint used for interior and exterior surfaces.
- It creates a patina (antique/visual texture) effect on surfaces.
- It is acrylic emulsion-based and water-based.
- It has high coverage.
- Easy to apply and does not drip.
- Provides an aesthetic and decorative look.

PATINA EFFECT PAINT

20
Kg

Manufactured by Stork Boya in accordance with TSE standards.

High Performance

Rapid Drying

Easy Application

Long Lasting

Resistant to Acid & Alkali

Resistant to Abrasion

Water Resistant

Easy to Clean

Resistant to Fungi & Bacteria

Color Fast

Features:

- Solvent-free epoxy based, two-component, high performance industrial floor paint.
- Provides high resistance to corrosion and chemicals.
- Resistant to abrasion, impact and heavy use.
- Protects against acid, petroleum products and salt solutions.
- Ideal for high mechanical performance and long-lasting coatings.
- Suitable for hospital floors, petroleum pipeline lines and interior water tanks.

SOLVENT-FREE EPOXY PAINT

20
Kg

Features:

- Acrylic emulsion based, easy to apply, fast drying, economical interior wall paint.
- Complies with TSE standards.
- Has a matte decorative finish.
- High coverage, covers wall imperfections.
- Easy to clean, odorless.
- Provides homogeneous distribution and long-lasting durability.

KING PLASTIC

20
Kg

Features:

- Water-based, silk matte finish decorative interior wall paint.
- Provides a shiny appearance on the applied surface.
- Odorless, fast drying, easy to apply product.
- High coverage.
- Provides a silk matte finish, ensures hygienic surfaces.
- Economical and long-lasting.
- Does not crack or peel on the wall.

LINEN SATIN

20
Kg

Produced by Stork Paint in accordance with TSE standards.

or brush

Suitable for spray
equipment

Environmentally
friendly

Features:

- Specially designed decorative plaster for interior and exterior surfaces.
- Provides a natural and elegant stone-like appearance.
- Acrylic based, water based.
- Highly durable.
- Easy application, does not crack or peel.
- Breathable for vapor permeability.
- Long-lasting performance.

TRAVERTINE TEXTURED PLASTER

20
Kg

Features:

- Acrylic emulsion based, high quality and matte finish ceiling paint.
- Provides excellent adhesion on all types of surfaces.
- High covering power.
- Increases whiteness and provides a fresh look to interiors.
- Easy application, does not drip.
- High spreading rate.
- Matte finish and breathable.
- Long-lasting performance.

CEILING PAINT

20
Kg

Features:

- Decorative textured coating paint.
- Can be used on interior and exterior surfaces.
- Provides a textured appearance.
- Acrylic based, water based.
- Highly durable.
- Matte finish and breathable.
- Mold resistant.
- Contains 15%-20% silicone insulation in the applied area.
- Increases surface elasticity, prevents cracking.
- Prevents moisture penetration.
- Long-lasting performance.

VINYL GREEN

20
Kg

Produced by Stork Boya in accordance with TSE standards.

Ready to use

Stir

Dilution ratio 15-20%
Thin with 2-3 coats

Do not freeze

Water based

Can be applied with roller

Suitable for spray application

Environment friendly

Features:

- Acrylic copolymer based, water based, silicone added insulating material and primer.
- It provides excellent adhesion to the last coat of paint.
- It increases the performance of the top coat in terms of coverage, adhesion and balance.
- Can be used safely on both new and old painted surfaces.
- It prevents the wall from losing breath, protects from dirt and peeling.

SILICONE INSULATED PRIMER

20
Kg

Features:

- Mineral based, decorative exterior coating material.
- Forms a natural and sand textured aesthetic surface.
- Water based, does not contain solvent.
- High breathability prevents moisture and peeling on the surface.
- Durable against long term outdoor conditions.
- Applied with a trowel or special texture paint application.
- Preferred as a decorative coating on exterior surfaces.
- Surface must be clean and sound.

NATURAL MINERAL SAND PAINT

20
Kg

Features:

- Specially formulated hardener that can be mixed in certain ratios for epoxy systems.
- Reacts with epoxy resin to provide high mechanical performance and chemical resistance.
- Solvent free.
- Provides durable surfaces resistant to acid, base, oil and chemicals.
- Used in interior and exterior areas in epoxy floor coating and industrial type paints.

EPOXY HARDENER

20
Kg

Produced by Stork Paint in accordance with TSE standards.
